SRP 599,00 €

VANQUISH 560 PRO-PACK with Multi-IQ, V12X and V8X coils, ML60 wireless earbuds, 5 m IP68 waterproof build, red LED display and handgrip vibration for pro-level detecting.

Colour

PRODUCT DETAILS

The VANQUISH® 560 PRO-PACK is the ultimate packout for professional-level performance in a simplified, intuitive design. Powered by Minelab's proven Multi-IQ® technology, it scans across multiple frequencies at once for reliable target identification and faster target recovery in changing ground. With 30 discrimination segments, four levels of Iron Bias control and five audio tones, this detector makes it easy to separate trash from treasure. The VANQUISH 560 PRO-PACK includes both the V12X and V8X coils, providing options for wide coverage or precision in tighter ground. Fully waterproof up to 5 m (16 ft) with an IP68 rating, it's made to perform on beaches, lakes and wet terrain. A red LED monochrome display keeps visibility high in low light, while ML60 wireless earbuds with Bluetooth® LE Audio and handgrip vibration deliver rapid, uninterrupted signal feedback. Lightweight, compact and built to detect longer with up to 10 hours of battery life.

Proven Performance
Multi-IQ powers performance across all soils, all the time.

Intuitive Interface
Streamlined controls for simple navigation and seamless operation.

See in Any Light
Detect in low-light conditions with a red LED display and built-in flashlight.

Advanced Target Feedback
Detect hands-free with the ML60 wireless earbuds, paired with handgrip vibration for clear and tactile feedback on every signal. Exclusively compatible with Bluetooth® LE Audio devices using the LC3 codec, ensuring faster connection and clearer audio than standard Bluetooth.

Multi-IQ Technology
Why Multi-IQ? Because more performance shouldn't mean more effort. Minelab's proven simultaneous multiple frequency technology gives you the power of multiple detectors working for you at the same

time. With Multi-IQ there's no switching frequencies, no second-guessing. Just turn it on and start finding. Coins, gold, jewellery. Parks, fields, beaches. No terrain's off-limits. No treasure left behind. All metals. All soils. All the time.

Volume and Target Tones
10 volume levels for both overall volume and ferrous tone response, while five distinct target tones give greater control over how signals are heard. Volume can be adjusted to suit any environment, while target tones provide sharper audio separation. These features work together to support faster recognition and more intuitive detecting in the field.

Sensitivity and Discrimination
10 Sensitivity levels and 30 Discrimination Segments provide advanced control over how the detector responds to both ground conditions and metal targets. Adjust sensitivity to detect faint signals or stabilise performance in difficult soils, while discrimination allows for isolation of desired metals. Working in tandem, these features deliver the precision and control needed to maximise every hunt.

Iron Bias
Four Iron Bias levels give you control over how iron signals are handled, improving clarity in trash-filled ground and helping valuable targets stand out.

Search Modes
With Park, Field, Beach and a customisable User Profile, your detector is ready for any ground you explore. These modes let you adapt seamlessly to busy sites, wide fields or challenging shorelines, while the User Profile gives you quick access to your own preferred settings. Together, they deliver the versatility to hunt effectively in almost any environment.

Fully Waterproof
With an IP68 rating, this detector is built to handle water, dirt and dust with no compromise to performance. Fully submersible up to 5 m (16 ft), it's engineered for versatility across submerged environments, wet terrain and unpredictable weather. Reliable detection continues uninterrupted in creeks, shorelines, rain-soaked ground and other demanding conditions.

Included Coil
Detect your way with the V12X 12 x 9" Double-D coil for depth and the V8X 8" x 5" Double-D coil for precision."

Rechargeable Battery
A built-in lithium-ion rechargeable battery delivers dependable performance, with up to 10 hours of continuous run time.

Pinpoint Mode
Included Pinpoint Mode to help you zero-in on targets and dig smaller holes with extreme precision.

What's included in the box?

- Vanquish 560 Metal Detector
- Vanquish V12X and V8X Coil
- Earbuds
- Charging Cable
- Quick Start Guide
- Manual

Specs

Product Attributes

© 2026 ATS trade & service GmbH. All rights reserved. Specifications and design are subject to change

EAN:	0810180270113
Manufacturer number:	3820-0009
Product weight:	1.26 kilograms

Technical specifications

Search modes:	Park, Field, Beach, User Profile
Custom search profiles:	Yes
Noise cancel:	Auto (19 Channels)
Sensitivity:	10 levels (1 to 10)
Target identification:	Nonferrous: 1 to 99
Pinpoint mode:	true
Iron bias:	1 to 2
Discrimination segments:	30 segments (in groups of 4 Target ID's)
Depth Indicator:	5 levels

General

Battery type:	Built-in
Battery capacity:	4500
Supplied coil:	V12X™ 12" Double-D
Flashlight:	Off, On
Display:	Monochrome LCD
Display/Keypad Backlight:	Red backlight (Off (0), Low (1), High (2)
Product length:	Extended: 142 cm (56 in) | Collapsed: 79.5 cm (31.2 in)
Operation temperature:	-10-+40
Storage temperature:	-20-+70
IP classification:	Waterproof to 5 m (16 ft), IP68
Audio outputs:	In-built loudspeaker Wired 3.5 mm (1/8") headphones Wireless audio
