

Minelab Pro-Find 35 pinpointer metal detector

255531

The PRO-FIND 35 offers high performing pinpointer features in a waterproof housing, designed for the expert detectorist with Ferrous Tone ID, adjustable sensitivity, audio and vibrate target indication and LED flashlight. Locate coins, rings & gold with speed and accuracy.

PRODUCT DETAILS

DIF TECHNOLOGY
Minelab's Detector Interference Free (DIF) technology significantly reduces interference with an operating metal detector, when the pinpointer is switched off, by disengaging the pinpointer coil's magnetic field.

FERROUS TONE ID
Two different responses help you to identify ferrous junk from nonferrous treasure. Great to use with non-discriminating detectors.

WATERPROOF TO 3 M
Rugged waterproof design ideal for beach and river pinpointing. The perfect companion for a waterproof detector.

AUDIO & VIBRATION INDICATION
Audio tones and vibration intensify as the probe approaches the target making target recovery easier, especially underwater.

ADJUSTABLE SENSITIVITY
Five sensitivity levels allow you to precisely adjust for maximum depth and minimum noise in all ground conditions. Easily adjustable with separate +/– buttons.

HIGH VISIBILITY
The PRO-FIND's bright yellow handgrip is clearly visible for easy location, so you won't leave it behind after you dig.

HANDY LOST ALARM
PRO-FIND series pinpointers feature a useful lost-alarm that will sound after a period of inactive use. This makes it easy to locate your forgotten pinpointer, even in long grass, so you never leave it behind.

HOLSTER & LANYARD INCLUDED
A lanyard and a tough, semi-rigid holster that attaches to any belt will keep your PRO-FIND at the ready.
