

Minelab Equinox 900 collapsible metal detector

255546

SRP 1 149,99 €

The best-selling all-in-one treasure and gold detector just got better. The EQUINOX 900, driven by Minelab's proven ground-breaking Multi-IQ technology, boasts an impressive 119 High Resolution Target ID system, superior target separation, and is fully waterproof to 5 m with IP68 rating. With upgrades like its 3-piece carbon-fibre collapsible shaft system and advanced audio controls, plus fully-loaded features including Control Pod Flashlight and Handgrip Vibration there's never been a better time to join the Minelab EQUINOX revolution.

PRODUCT DETAILS

SIMULTANEOUS MULTI-FREQUENCY.
Choose between 6 single frequencies when you have a specific target in mind, or use our revolutionary Multi-IQ technology to automatically employ 5 frequencies at once. All metals, all soils, all the time.

FULLY WATERPROOF.
Don't stop your search at the beach or the bank. This metal detector is fully waterproof and submersible up to up to 5 m so you can find gold, silver, jewelry, coins and other treasures underwater.

4 MODES.
Easily select from Park for high-trash areas, Field for coins and artifacts, Beach or Gold modes to focus on target or ground types. Features like a built-in flashlight and Handgrip Vibration mean you can power on long after the sun has gone.

ACCURATE TARGET ID.
Confidently sort trash and treasure thanks to the fast and accurate 119 high-resolution Target ID and superior audio control that allows you to gauge size and depth (Low Latency wireless headphones included).

PORTABLE.
Comprising of lightweight 3-piece carbon-fiber shafts, the Equinox 900 weighs only 1.2 kg and packs down to a mere 61 cm so you can throw it in your backpack when you're on the move.
