PRODUCT DETAILS

Easy Fully-Automatic Waterproof Hunter
VANQUISH® 360 delivers streamlined detecting with professional-level performance in a lightweight and compact form. Built with Minelab's proven Multi-IQ® technology, it scans multiple frequencies at once to boost ground coverage and help identify more targets. Choose from Park, Beach and All Metal modes, and cover more ground with the included V10X coil. VANQUISH 360 is IP68-rated and fully waterproof up to 5 m (16 ft), with 119 Target IDs and six discrimination segments to help separate treasure from junk.

Proven Performance
Multi-IQ powers performance across all soils, all the time.

Intuitive Interface
Streamlined controls for simple navigation and seamless operation.

Compact and Ready
Weighing only 1.16 kg (2.6 lbs), it's easy to handle and quick to pack away.

Rugged Build
IP68-rated for full submersion up to 5 m (16 ft) to detect in wet terrain. Ergonomic, with aluminium and fibreglass S-bend shafts for balanced handling and long sessions.

Multi-IQ Technology
Why Multi-IQ? Because more performance shouldn't mean more effort. Minelab's proven simultaneous multiple frequency technology gives you the power of multiple detectors working for you at the same time. With Multi-IQ there's no switching frequencies, no second-guessing. Just turn it on and start finding. Coins, gold, jewellery. Parks, fields, beaches. No terrain's off-limits. No treasure left behind. All metals. All soils. All the time.

Search Modes
With Park, Beach and All Metal search modes, you can adapt to changing environments and detect with ease across a range of ground conditions.

Volume and Target Tones
Five volume levels and three distinct target tones (Low, Mid and High) make it easier to distinguish between different targets. Adjust the volume to match your environment, while target tones provide clear audio cues to prioritise valuable targets. Improve signal awareness and sharpen target recognition in any environment.

Sensitivity and Discrimination
Five sensitivity levels and six discrimination Segments give you full control over how the detector responds to ground conditions and targets. Adjust sensitivity to uncover faint signals or stabilise performance in difficult soils, while discrimination helps focus on the metals you want and ignore the rest. Together, these settings deliver the precision and flexibility to make every hunt more effective.

Iron Bias
Fixed Iron Bias reduces signals from ferrous trash, helping isolate valuable targets and maintain consistent performance in junk-filled areas.

Fully Waterproof
With an IP68 rating, this detector is built to handle water, dirt and dust with no compromise to performance. Fully submersible up to 5 m (16 ft), it's engineered for versatility across submerged environments, wet terrain and unpredictable weather. Reliable detection continues uninterrupted in creeks, shorelines, rain-soaked ground and other demanding conditions.

Included Coil
Highly versatile and waterproof V10X 10 x 7" Double-D coil.

Rechargeable Battery
A built-in lithium-ion rechargeable battery delivers dependable performance, with up to 10 hours of continuous run time.

Pinpoint Mode
Included Pinpoint Mode to help you zero-in on targets and dig smaller holes with extreme precision.

Scope of delivery

- VANQUISH 360 Metal Detector
- Charging cable
- Manual
- Quick start guide

Specs

Product Attributes

EAN:	0810180270083
Manufacturer number:	3820-0006
Product weight:	1.16 kilograms

Technical specifications

Search modes:	Park, Beach, All Metal
Custom search profiles:	No
Noise cancel:	Auto (19 Channels)
Sensitivity:	5 levels (1 to 5)
Target tones:	3 tones
Target identification:	119 levels notch discrimination: Ferrous: 19 to 0 | Nonferrous: 1 to 99 Depth Indicator
Pinpoint mode:	true
Iron bias:	Fixed
Discrimination segments:	6 segments (in groups of 20 Target ID's)
Depth Indicator:	5 levels

General

Battery type:	Built-in
Battery capacity:	4500
Supplied coil:	V10X™ 10" Double-D
Display:	Monochrome LCD
Product length:	Collapsed: 79.5 cm | Extended: 142 cm
Operation temperature:	-10-+40
Storage temperature:	-20-+70
IP classification:	Waterproof to 5 m (16 ft), IP68
Audio outputs:	In-built loudspeaker Wired 3.5 mm (1/8") headphones
